Eco-friendly (5 pallets or more)
2-3/8" x 8-1/4" (cut and stack)

Available in clear or blue with a flat (standard) cap or a sport cap.

For orders of 5 pallets or more, customers have the option of an eco-friendly bottle, which uses 38% less plastic than a conventional bottle.

In designing a label, allow 1/8" extra on all sides for bleed.

Peel and stick labels are like stickers with adhesive pre-applied. These labels leave a gap at the back of the bottle because the two ends do not meet.

Cut and stack labels have glue applied to the label as it is being applied to the bottle. These labels fully wrap the bottle and both ends meet. The eco-friendly bottle requires this label.
